

BURGERHOUT

HEAT PUMP BOILER CONNECTION KIT

THE SOLUTION FOR ALL TYPES OF HEAT PUMP BOILERS

Complete set of connection materials, ducts and accessories for air-side connection of all brands of heat pump boilers. The set contains everything needed for efficient installation, from bends and connectors to mounting materials.

BENEFITS

- Sound-absorbing:** Reduces noise for quieter operation.
- Optimal efficiency:** Minimal pressure loss thanks to low resistance.
- Well insulated:** Both the ducts and accessories are airtight and thermally insulated.
- Easy installation:** Lightweight materials and easy to cut to size.

The system has a flexible design and can be easily adapted to any situation. If extra length or a different configuration is required, the ductwork can be easily extended using standard Burgerhout EasyAir EPS components.

MATERIAL

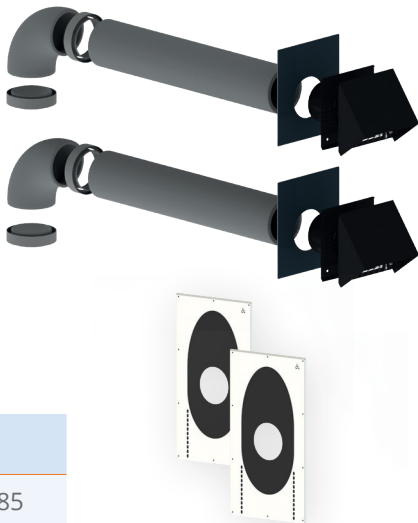

- Insulated ducts: EPS
- Wall terminal: Aluminium

COMPONENTS

- 2x Insulated duct
- 2x Insulated elbow
- 4x Connector
- 2x Airtight boarding plate
- 2x Wall terminal
